COLUMBIA AND LARUE THE MOTHER VEINS.

The Developments in Crittenden Prove it to be
Very Rich in Lead, Zinc and Fluor Spar.

Harry Watkins can give fifteen
miners work digging clay.

The Marble mines will go on
contract next Monday; the Wring
Bros. of Marion have the con-
tract.

The new opening on the Felix
Cox place is looking fine. They
are taking out a large amount of
fluor spar, and nearly all of it is
No. 1.

Mr. Wright, of Louisville, Ky.,
one of the United States mineral-
ogists and engineers, spent three
or four days here in our mining
field last week. He says the Co-
lumbia and the LaRue veins are
the two mother veins of this dis-
trict. Mr. Wright also says that
the development in Crittenden
county shows this to be a very
rich section for lead, zinc and fluor
spar.

The Senator mines struck a
large body of water and had to
close down until they get a larger
pump, which we understand has
been ordered.

Mr. Snow visited the Blue &
Nunn Nine Acres last week and
bought a large amount of very fine
zinc that was piled up ready for
shipment at that mine.

A young man from the country
was in town last Monday and in-
formed us that the Ada Florence
mine, run by Mr. J. M. Persons,
is getting very rich with lead and
zinc in the bottom of the shaft.

The Eagle Fluor Spar company
will be ready to put their big mill
on the Cullen mine in operation
in about six weeks. We hope this
mill will prove a success and have

every reason to believe it will
Major Hearne and Captain Haw
have labored hard to figure out
this separator.

The Whealcroft Mining compa-
ny's mines near Mexio have star-
ted a cross level from the bot-
tom of their shaft, for the purpose
of cutting another vein that runs
parallel with the Tabb.

The Miller mines, owned and
run by the Marion Mineral com-
pany, are getting out some very
fine carbonate of zinc. They took
out some chunks last week that
weighed from four to five hundred
pounds each, of rich carbonate.

Mr. Julius Fohs, the Marion
Zinc company's Supt. and engi-
neer, left for Louisville last week,
we understand, to attend to some
very important business for the
company. The company have
closed their Riley mines down
temporarily.

Messrs. Snow, Noble and Wat-
kins had a meeting last week in
the interest of the Columbia Mi-
ning Co. They decided to sink
the Columbia shaft 100 feet fur-
ther on contract, and the contract
has been since let. This will make
the shaft 265 feet deep which will
be the deepest shaft in the dis-
trict. Spar can not go on a per-

fect. They also decided to have
two new shafts on the Columbia
vein, north of the old Columbia
shaft.

Our Carrsville correspond-
ent writes:

Quite a number of visitors of
note have been to the Schofield-
Spees mines recently. All had

their opinions, of course, but whe-
ther adverse or otherwise, the
work continues the same. Two
drills are being worked all the
time, and they are making a show-
ing in depth.

Domestic consumption is tak-
ing a pretty good share of the out-
put of spar, but not quite enough
to prove a strong factor as a mar-
ket stimulator. The habit of cau-
tion has become a characteristic
of the home consumer, and clings
to him with considerable tenacity.
It will take time and actual trade
improvement to encourage spar
buyers in this country to purchase
heavily for prospective require-
ments. A movement of this kind

will come only with the growth of
confidence in the soundness of
business conditions, but when the
last vestige of business depression
disappears, prudent and conserva-
tive consumers of spar will be
among the first to recognize the
fact. Spar can not go on a per-

manent high basis until demand
increases greatly in the United
States. When home industries
are able to consume 50,000,000
pounds of spar per month, the
market will have a foundation

strong enough to support it at a
reasonable and stable level. The
outlook for renewed activity is im-
proving, and as this becomes more

and more a concrete fact, consum-
ers will feel reason to congrat-
ulate themselves, as with any price
with the raw material their opera-
tions are certain to be on a large
scale.

One great advantage to the min-
ing industry of the United States

JOSEPH PULITZER'S LETTER.

BAR HARBOR, ME., Sept. 7, 1904
Joseph Daniels, Esq., Chairman
Committee of National Conference of Democratic Editors,
Waldorf-Astoria, N. Y.

My Dear Sir: Accept my thanks for your urgent invitation to speak to my brother editors of the Democratic faith upon the issues and duties of the Presidential campaign.

It would give me great pleasure to be with you, but physical infirmities forbid. You meet as the representatives and instruments of Publicity, the greatest moral force. No other body of men can do so much in this campaign for Truth and Publicity as the Independent and Democratic editors of the country. I firmly believe that this year the Democracy has the Truth and the Right on its side, and that if sufficient publicity shall be given to the Truth, and no serious mistakes are made in the campaign at vital points, Judge Parker will be elected.

The result in Vermont voted should be accepted as a warning, not as a discouragement. Remember that the largest total vote ever cast in Vermont is only fifty-six thousand about one-tenth the vote of New York city alone. The Democratic vote is usually only ten or twelve thousand and was never more than twenty thousand, which is less than the Democratic vote in several wards of New York. It is absurd to suppose that the result of the Presidential election is decided, or even foreshadowed, in the fastnesses and farms of the little Green Mountain State. The contest is to be fought out in New York, the Empire State, whose habit it is to vote independently; in the rich and populous industrial cities of Connecticut and New Jersey; on the wide plains and busy marts of Indiana, Wisconsin and Illinois, and in the doubtful states of the farther west. There are signs of a reaction against protection, privilege and plutocracy; against personal government, militarism, extravagance and the political power of the trusts. Mr. Roosevelt's weakness as a candidate in his own State has been demonstrated at every election. Should he carry the country in November, as it is possible that he may, the adverse vote of New York would serve as a salutary check on his usurpation of power, and no effort should be spared to secure this result.

The lesson of the Vermont election is that the Independents and the Democrats must work with increased vigor and under a more complete system. Truth may be self-evident but it is not self-enforcing. Truth is mighty, but it will not prevail without all the aids of publicity. Truth must be proclaimed, illustrated, established, enforced. Most important of all, Truth must have a leader.

The result of the Vermont election makes it, in my judgment, all the more imperative that Judge Parker shall realize and perform his duty to the millions of honest voters who seek no office, look for personal gain in this election; but who see in him an ideal and a hope, and aspire to preserve through the institutions they love. The people need a judicial Chief Magistrate but not too judicial a candidate. The judge is trained to look at both sides of a case; the candidate should have his hands full in looking after his own. From the judge is expected cautious deliberation; from the candidate inspiration, energy, promptness and aggressive impulse. It is the part of a leader to lead in the combat of ideas, in the conflict of principle, in the denunciation of public wrongs, in the presentation and enforcement of Truth.

It is because I so strongly desire Judge Parker's election that I speak so plainly on this subject.

I admire his judicial temperament. I appreciate the great personal sacrifices he has made in accepting the nomination. But having accepted it, I earnestly beg of

you, when you see him tomorrow at Esopus, to urge that he accept also the full responsibility of his position; that he will not permit the campaign in New York, the pivotal state, to be mismanaged by the small politicians who beset him; that he will in the next sixty days be even more than heretofore the people's leader and teacher, their tribune and advocate.

Joseph Pulitzer.

Emergency Medicines.

It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite if not a household necessity is Chamberlain's Pain Balm. By applying it promptly to cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before inflammation sets in, which insures a quick recovery. For sale by Woods & Orme, Druggists.

LETTER FROM MISSOURI.

QULIN, Mo., Sept. 15, 1904.—ED PRESS: I will now write you a few lines, while I have the time, to let you know I am still living and I hope this letter will find you all right.

I am now working for S. H. & S. P. Montgomery, merchandise men of Pollard, Ark. They own a large store at Pollard and one here, which I am working in. We have a nice stock of goods here, and a large trade. We also have control of the post office.

Qulin is just across the line from Clay county, Ark., in Butler county, Mo., located on the Pollard R R that leads from Poplar Bluff to the swamps. It is used for lumbering purposes but is surveyed from Poplar Bluff to Reator, Ark., through one of the heaviest timbered sections in the entire Southwest Missouri, and in Southeast Arkansas.

Railroads are being surveyed in many different directions from here, and you know railroads is the first great step to the development of the forest.

Well, Mr. Jenkins I wish you were here with your gun. I would love to see you try your hand on buck. I had venison for dinner yesterday.

I guess I will be in to see you and my old home Christmas, but can't tell for certain.

Well, as you are worried with so many bad letters, I will give you a rest for this time.

Yours truly,

John E. Roberts.

SEA TO COVER CHICAGO.

A Niagara Falls telegram to the Chicago Herald-Record has the following:

"Instead of a city of skyscrapers Chicago is doomed to become an expanse of water. In course of time the smaller buildings will disappear beneath the tide sweeping in from Lake Michigan. Above its surface will appear the tops of the Masonic Temple, the Montgomery Ward steeple, and the Auditorium tower—breaking the monotony of a yellow sea. Gradually these will disappear.

This is the prophecy of Prof. Grove K. Gilbert, of the United States Geological Survey, in a recent address before the members of the International Geographic Congress. He added to his gloomy picture by predicting that in those calamitous times the Niagara Falls would cease to exist and the great watercourse be as dry as the sands of Sahara.

One ray of comfort he held out however. These changes will not be accomplished in much less than 3,500 years.

In his address Prof. Gilbert declared that great changes were taking place in the Lake region. Unless man finds some great source of energy, such as the sun, he said, the Falls of Niagara will in time cease to be a spectacle of grandeur because of the power development.

He traced the events that had led to the creation of the great lakes and explained that in past centuries these lakes had other outlets, but that the tipping of the land as the ice passed away led to present conditions. The tipping of land is still going on, he says, and in the course of time the waters of Lake Erie would flow toward Detroit.

CYCLOCLES.

Some interesting facts about cyclones they occur during every month of the year; they are due to atmospheric conditions possible and probable everywhere; no precautions can prevent and no safe guards, protect against this force, and the only sure way to avoid personal loss is to take out cyclone and tornado insurance in a reliable company, rates surprisingly low, protection undeniably absolute.—Bourland & Haynes.

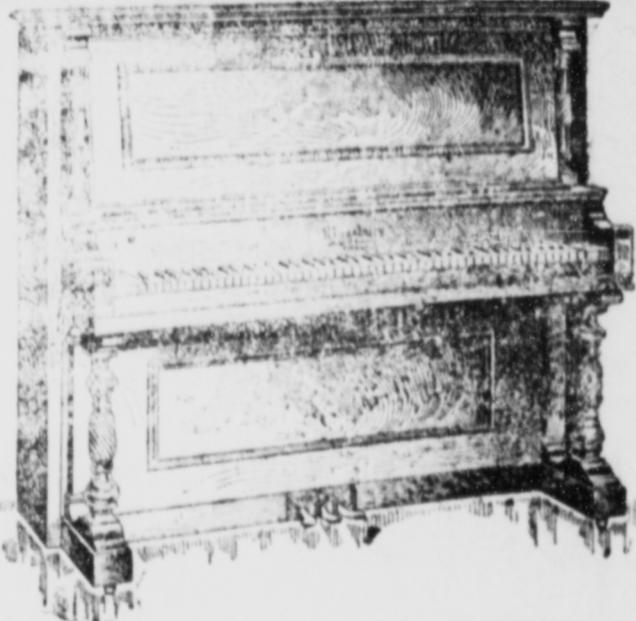

WASHINGTON LETTER.

Washington, D. C., Sept. 22.—The news this week in Washington is strongly amatory; the whole country will be amazed and perhaps alarmed, to hear that there will probably be a Cupid Bureau organized in the War Department whose business it will be to superintend marriages. Gen. Corbin "got a new idea while he was in Europe." He studied the personnel of the German army, and, after being entertained by the Emperor, resolved to copy its regulations as far as possible. No German officer is permitted to marry without the consent of the Emperor. Gen. Corbin now proclaims that no officer of the United States army should be permitted to marry until he has secured the permission of the Secretary of War after convincing that functionary, that he has what that functionary considers "a sufficient income."

It seems not to have been noticed that this insisting on financial competency, harks back to the cadetship at West Point, and that the inevitable tendency will be that only rich men's sons hereafter can hope to enter that institution. That this will strongly tend to the establishment of an American aristocracy of the sword goes without saying.

But, in the meantime, what becomes of the President's remonstrances against race suicide? and his apotheosis of fecundity, and his eulogies of those women who have borne twenty-four children? Corbin wants no poor man in the army except bachelors, and says "Marriages of army officers who have no property provisions for assuming the responsibility there for is hurtful both to the army and the officers themselves." Can the President approve of this, and what becomes of the romance of war? Are future heroines to be furnished only by the "Four Hundreds?" Under the Corbin regi-

Advantages of a Canning Factory

First, it gives a home market and a cash price for your fruit and vegetables.

Second, it keeps your money at home, which is now sent abroad to buy canned goods.

Third, it makes our community a producer instead of a consumer.

Fourth, it diversifies your farming industry.

Fifth, it employs home labor.

Sixth, properly managed it pays a good interest on the investment.

Seventh, it increases the real and rental value of your land.

Eighth, by giving your boys and girls work, it teaches them thrift and economy, thereby they become good citizens and assist in building up the community in which they live.

Ninth, it is a nucleus by which some other industry should naturally follow.

Tenth, it makes your community largely self-sustaining.

Eleventh, it saves and consumes thousands of dollars worth of fruit and vegetables that now go to waste for the want of a market.

Twelfth, it is a worthy, laudable enterprise employing many needy and deserving people. Also putting much cash in circulation, enabling your merchants to sell their goods for cash and at reduced prices.

Allow us to say further, Tomatoes are a great tobacco. B. G. Bright and others who have raised tobacco for years can testify. Below will be given amount delivered from their acreage in 30 days and cash obtained for same. No 14 to 18 months to wait as on tobacco.

E. A. Blick, \$111.96 from 9 acres.

B. G. Bright, \$108.13 from 3 acres.

John Sherrell, \$71.60 from 10 acres,

Wilson & Lane, \$56.83 from 3 acres.

John Sullivan, \$31.95 from 4 acres.

J. G. O'Hara, \$108.31 from 6 acres.

Wilson & Tosh, \$9.36 from 8 acres.

C. S. Blue, \$105.08 from 8 acres.

T. H. Dalton, \$57.03 from 5 acres.

James McElroy, \$14.55 from 2,000 hills.

This is for the first 30 days delivery and would have you to understand that Tomatoes bear until frost. This section of the country will produce Tomatoes for at least 90 days from beginning to close of Canning season.

Should your people desire a canning factory in your community, we would be pleased, if desired, to figure with them upon the following terms and conditions—

First, the price of a factory depends on size of buildings and amount of machinery, varying from \$6,700 to \$15,000. This includes buildings, warehouses and machinery set up in factory in running order.

Second, we can buy labor and building material in your town.

Third, no money or notes asked until factory is completed, as per terms and specifications in printed contracts.

Fourth, if desired we can furnish an experienced man to pack the goods.

Fifth, can assist in sale of your pack first season if desired.

Sixth, we can assist in explaining to the farmers when and how to plant their crops. Also to assist in contracting for a portion of your acreage and give many other advantages obtained from many years of practical experience in business. We are in a position to make close figures and can furnish first-class bank references.

REST

[By O. G. W.]

Shadows lie on land and sea,
Shadows lie on lake and sea,
Willow banks and placid streams,
Robed in silvery moonbeams, dream,
airy waves of incense sweeps;
Over earth, and all things sleep;
Perfume from a thousand flowers
Floating on the drowsy hours,
Land and sea and earth and sky
Hushed in tranquil mystery lie,
Is my darling sleeping too?
Or, by cares and only oppressed,
Does she seek in vain for rest?
Angels find her, for love's sake;
And, if restless and awake,
With your influence calm and sweet
Give my darling rest and sleep.

YOUR KIDNEYS ARE THEY WELL?

Unless they are, good health is impossible.

Every drop of blood in the body passes through and is filtered by healthy kidneys every three minutes. Sound kidneys strain out the impurities from the blood, diseased kidneys do not, hence you are sick. FOLEY'S KIDNEY CURE makes the kidneys well so they will eliminate the poisons from the blood. It removes the cause of the many diseases resulting from disordered kidneys which have allowed your whole system to become poisoned.

Rheumatism, Bad Blood, Gout, Gravel, Dropsy, Inflammation of the Bladder, Diabetes and Bright's Disease, and many others, are all due to disordered kidneys. A simple test for Kidney disease is to set aside your urine in a bottle or glass for twenty-four hours. If there is a sediment or a cloudy appearance, it indicates that your kidneys are diseased, and unless something is done they become more and more affected until Bright's Disease or Diabetes develops.

FOLEY'S KIDNEY CURE is the only preparation which will positively cure all forms of Kidney and Bladder troubles, and cure you permanently. It is a safe remedy and certain in results.

If You are a sufferer, take FOLEY'S KIDNEY CURE at once. It will make you well.

Some Pronounced Incurable

Mr. G. A. Stillson, a merchant of Tamico, Ill., writes: "FOLEY'S KIDNEY CURE is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I myself am able to testify to its merits. My face today is a living picture of health and FOLEY'S KIDNEY CURE has made it such."

Had Lumbar and Kidney Trouble

Edward Huss, a well known business man of Marion, Mo., writes: "I wish to say for the benefit of others, that I was a sufferer from lumbar and kidney trouble, and all the remedies I took gave me no relief. I began to take FOLEY'S KIDNEY CURE, and after the use of three bottles I am cured."

DEMOCRATS! Don't fail to REGISTER!

Hon Geo F. Hoar, the venerable Senator from Massachusetts, is supposed to be dying.

Hon. David B. Hill will speak in Evansville on Tuesday, Oct 18. He will doubtless draw an immense audience.

Our late dispatches state that Port Arthur is about to be "stormed" again. This storming business is becoming to be "a linger horror long drawn out."

Lady Curzon, formerly Miss Mary Leiter, of Chicago, but now vicereine of India, who has been battling with death at her home near London for the past week or ten days is reported as somewhat better.

A portion of whom we are sorry to say accepted it, I am afraid.

Hon David G. Colson, of Middletown, is dying at his home of nervous prostration. He has been a prominent figure in the Republican ranks of the Eleventh district for many years.

News is received from China that there is imminent danger of a Boxer uprising. The 17th of October next is the day generally supposed to be fixed upon for the extermination of the Christians. Recent movements among Boxer leaders has caused considerable uneasiness in high places.

The complexion of the next House of Representatives may depend upon the vote of Kentucky. There is no disaffection in any district and with the exception of the Eleventh district the entire delegation should be Democratic.

Something commencing with an "H" has broke loose between National Chairman Colley and the Republican Campaign committee of this State. Colley insists that no one save the National Committee has a right to "squeeze" Federal office holders, while Chairman Long continues serenely levying the tribute. Hence the row.

Richard P. Ernst, Chairman of the Republican Campaign committee, was through this part of the State this week and visited Paducah and Hopkinsville, in both of which places he was in consultation with the local leaders. At Paducah he was joined by ex-Senator Debow. It is surmised a deal may be on with the Populists. Although the old Gibraltor is impregnable, it might be just as well to watch the movements of Mr. Ernst.

DON'T VOTE FOR WATSON.

Mr. Henry George, Jr., in a letter over his signature published in the New York World, expressing his desire for Democratic supremacy says in part:

"To men thinking as I do there is not only no good result to be obtained by voting for Mr. Watson, the People's party candidate for the Presidency; there is a negative evil. The election lies between President Roosevelt and Judge Parker, and what one or the other stands for must govern the administrative branch of the United States Government for the next four years."

Tragedy Averted.

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know, it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by Woods & Orme, Druggists. Price 50c and \$1.00. Trial bottles free.

Gas Kurapatkin will make his next stand at Tie Pass. He will probably stop long enough to alter its name to I Pass.—Hopkinsville Kentuckian.

FOLEY'S HONEY AND TAR
Cures Colds; Prevents Pneumonia

ROOSEVELT A PERIL.

Dr. Henry Wade Rogers, formerly President of Northwestern University, a distinguished writer on constitutional law, and the present dean of the law department of Yale University, concerning President Roosevelt expressed himself, in a speech to the Connecticut State Convention as follows:

"Since he became President he has shown, not only by his treatment of Panama and his action on the pension matter, as well as by his dictatorial assumption of authority in every department of the Government such a disregard of the limitations of power as to lead many thoughtful men to distrust his wisdom. It is this distrust which perhaps more than any other reason, has led the independent press of the country, almost without exception, to pronounce against him in this campaign and to regard him as a dangerous pilot for a great ship."

Has Sold a Pile of Chamberlain's Cough Remedy.

I have sold Chamberlain's Cough Remedy for more than twenty years and it has given entire satisfaction. I have sold a pile of it and can recommend it highly.—Joseph McElheny, Linton, Iowa. You will find this remedy a good friend when troubled with a cough or cold. It always affords quite relief and is pleasant to take. For sale by Woods & Orme, Druggists.

Where Will It End?

"Does not his whole career, illustrated by his writings, his sayings and his doings—his heedless criticisms, his spectacular exploitations, his broken promises, reveal to us a self-willed adventurer upon the high seas of public life, having no rudder or compass except his own ambition; no principle or rule of conduct save that of decking the machines with the flounces and furbelows of civic righteousness while violating the spirit and sacrificing the actualities of the civil service by a line of partisan appointments to office never surpassed during the worst times of the spoils system he has so stigmatized and exemplified? Was Jackson, whose ignorance he rebukes, more personal and autocratic than he is himself? Was Grant, whom in life he persistently antagonized, more indifferent to the admonitions of public sentiment?

"And if we have seen such things in the green leaf what may we not expect to see in the brown? If elected President in 1904, why not again in 1908? The tradition once broken what may not be the possibilities in 1912?"—Henry Watterson to the Democratic Editors.

Sour Stomach.

When the quantity of food taken is too large or the quality too rich, sour stomach is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let five hours elapse between meals, and when you feel a fullness and weight in the region of the stomach after eating take Chamberlain's Stomach and Liver Tablets and the sour stomach may be avoided. Jackson, Ky., Sept 22—Bill Britton, who was indicted at Lexington yesterday for the murder of James Cockrell, was arrested near here this afternoon by Chas. Terry, Coroner Wm. Bailey and others, composing the posse from Lexington.

The posse came upon Britton unexpectedly, near his home, and he made no attempt at resistance, but as he was known to be a desperate man, he was handcuffed at once.

Britton is a cousin of Judge James Hargis, and as soon as he was arrested Mrs. Britton telephoned to Judge Hargis, asking that he secure her husband's release on bail.

The posse went to Lee City and thence by hack to Torrent, by the Lexington and Eastern railroad, rather than go through Jackson to Lexington.

The Stomach is the Man.

A weak stomach weakens the man, because it cannot transform the food he eats into nourishments. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revive the tired and run down limbs and organs of the body. Kodol Dyspepsia Cure digests what you eat, cleanses and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia and all stomach troubles. Sold by Woods & Orme.

A Power For Good.

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Philpot, of Albany, Ga., says: "During a bilious attack I took one. Small as it was it did me more good than calomel, blue mass or any other pill I ever took and at the same time the effect was pleasant. Little Early Risers are certainly an ideal pill." DON'T VOTE FOR WATSON.

Mr. Henry George, Jr., is a writer over his signature published in the New York World, expressing his desire for Democratic supremacy says in part:

"To men thinking as I do there is not only no good result to be obtained by voting for Mr. Watson, the People's party candidate for the Presidency; there is a negative evil. The election lies between President Roosevelt and Judge Parker, and what one or the other stands for must govern the administrative branch of the United States Government for the next four years."

Tragedy Averted.

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkinson of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know, it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by Woods & Orme, Druggists. Price 50c and \$1.00. Trial bottles free.

Gen. Kuropatkin will make his next stand at Tie Pass. He will probably stop long enough to alter its name to I Pass.—Hopkinsville Kentuckian.

ROOSEVELT A PERIL.

Dr. Henry Wade Rogers, formerly President of Northwestern University, a distinguished writer on constitutional law, and the present dean of the law department of Yale University, concerning President Roosevelt expressed himself, in a speech to the Connecticut State Convention as follows:

"Since he became President he has shown, not only by his treatment of Panama and his action on the pension matter, as well as by his dictatorial assumption of authority in every department of the Government such a disregard of the limitations of power as to lead many thoughtful men to distrust his wisdom. It is this distrust which perhaps more than any other reason, has led the independent press of the country, almost without exception, to pronounce against him in this campaign and to regard him as a dangerous pilot for a great ship."

Has Sold a Pile of Chamberlain's Cough Remedy.

I have sold Chamberlain's Cough Remedy for more than twenty years and it has given entire satisfaction. I have sold a pile of it and can recommend it highly.—Joseph McElroy, Linton, Iowa. You will find this remedy a good friend when troubled with a cough or cold. It always affords quite relief and is pleasant to take. For sale by Woods & Orme, Druggists.

Where Will it End?

"Does not his whole career, illustrated by his writings, his sayings and his doings—his heedless criticisms, his spectacular exploitations, his broken promises, reveal to us a self-willed adventurer upon the high seas of public life, having no rudder or compass except his own ambition; no principle or rule of conduct save that of decking the machines with the flounces and furbelows of civic righteousness while violating the spirit and sacrificing the actualities of the civil service by a line of partisan appointments to office never surpassed during the worst times of the spoils system he has so stigmatized and exemplified. Was Jackson, whose ignorance he rebukes, more personal and autocratic than he is himself? Was Grant, whom in life he persistently antagonized, more indifferent to the admonitions of public sentiment?

"And if we have seen such things in the green leaf what may we not expect to see in the brown? If elected President in 1904, why not again in 1908? The tradition once broken what may not be the possibilities in 1912?"—Henry Watterson to the Democratic Editors.

Working Overtime.

Eight hour laws are ignored by those tireless, little workers.—Dr. King's New Life Pills. Millions are always at work night and day, curing Indigestion, Biliousness, Constipation, Sick Headache and all Stomach, Liver and Bowel troubles. Easy, pleasant, safe, and sure. Only 25c at Woods & Orme's drug store.

WAS IN BIG HORN FIGHT.

Bowling Green, Ky., Sept 22—George A. Wallace, local agent for Louisville piano company, died here last night after a brief illness. The remains will be taken to his former home, Greenwood, Indiana, for interment. Mr. Wallace was in the battle of the Little Big Horn and was a member of the G. A. R. He has written several volumes of verse, mostly stories of the two wars in which he was engaged.

More Riots.

Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by ultimate collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and effective nervine, and the greatest all around medicine for run down systems. It dispels Nervousness, Rheumatism and Neuralgia and expels Malaria germs. Only 50c, and satisfaction guaranteed by Woods & Orme, druggists.

It Saved His Leg.

P. A. Danford of LaGrange, Ga., suffered for six months with a frightful unning sore on his leg; but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25 cts. Sold by Woods & Orme, druggists.

6 Cents

Eight cents a pound is what a young woman paid for twelve pounds of flesh.

She was thin and weak and paid one dollar for a bottle of Scott's Emulsion, and by taking regular doses had gained twelve pounds in weight before the bottle was finished.

Eight cents a pound is cheap for such valuable material. Some pay more, some less, some get nothing for their money. You get your money's worth when you buy Scott's Emulsion.

We will send you a little free.

Dies at Smithland.

Paducah, Sept 22—Col Samuel H. Piles, aged eighty one, died at Smithland last night from old age. He was born in Daviess county, went to Livingston county in early life and was for many years sheriff, subsequently practicing law. Twenty years ago he came to Paducah, but moved back to Smithland two months ago. He leaves three sons and two daughters.

Sour Stomach.

When the quantity of food taken is too large or the quality too rich, sour stomach is likely to follow, and especially so if the digestion has been weak by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let four hours elapse between meals, and when you feel a fullness and weight in the region of the stomach after eating take Chamberlain's Stomach and Liver Tablets and the sour stomach may be avoided. For sale by Woods & Orme.

Bill Britton Arrested.

Jackson, Ky., Sept 22.—Bill Britton, who was indicted at Lexington yesterday for the murder of James Cockrell, was arrested near here this afternoon by Chas. Terry, Coroner Wm. Bailey and others, composing the posse from Lexington.

The posse came upon Britton unexpectedly, near his home, and he made no attempt at resistance, but as he was known to be a desperate man, he was handcuffed at once.

Britton is a cousin of Judge James Hargis, and as soon as he was arrested Mrs. Britton telephoned to Judge Hargis, asking that he secure her husband's release on bail.

The posse went to Lee City and thence by hack to Torrent, by the Lexington and Eastern railroad, rather than go through Jackson to Lexington.

The Stomach is the Man.

A weak stomach weakens the man, because it cannot transform the food he eats into nourishments. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revive the tired and run down limbs and organs of the body. Kodel Dyspepsia Cure digests what you eat, cleanses and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia and all stomach troubles. Sold by Woods & Orme.

A Power For Good.

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Philpot, of Albany, Ga., says: "During a bilious attack I took one. Small as it was it did me more good than calomel, blue mass or any other pill I ever took and at the same time the effect was pleasant. Little Early Risers are certainly an ideal pill." Sold by Woods & Orme, druggists.

LITTLE FLASHES FROM LITTLE FOLKS

MY LIFE.

Addie Carter.

I was first a cotton seed. I was planted in the earth and the help of the sun and rain I grew to be a plant three or four feet tall.

In about a week, long balls came on my stalk and when they burst open the fluffy cotton hung on them and then it was time to pick the cotton.

All of the fields were full of negroes with large baskets ready to begin the work. When they would get around the field once they were not through picking, but it took them from July till Christmas to get the picking done.

After I was picked I was sent to a cotton gin to have my seed taken out. They were pressed between some rollers, and the oil which they contained was used in making soap and in mixing paints.

Then I was sent to a factory and pressed into large bales that weighed about four or five hundred pounds.

Next, I was spun into some cotton goods, some of it was made into a handkerchief and I was put into a store and sold to a girl, but she has about worn me out.

When I do wear out I will be made into writing paper.

HELEN'S QUARTER.

Dixie Trister

When Helen was eight years old her father gave her a bright new silver dollar.

She said, "what shall I do with this quarter, mamma?" "I will take you up town and see," said her mamma.

That evening a poor boy came to Helen's house and asked for some money. Helen thought of the quarter, she ran and got it and handed it to the boy.

After the boy had gone Helen said, "I believe that I am happier now than if I had spent the quarter up town."

THE VAIN DOG.

A hungry dog, while passing along the road, observed another dog coming toward him with a piece of meat in his mouth.

"Hello, my old friend," said the hungry dog, "wait a moment" and before the dog came to a full stop, the first dog continued:

"I just came from a dog meeting down town and it was there declared that you could bark better than any other dog in town. Every since I left the hall I have been out looking for you, hoping that I might learn a few lessons. Will you kindly let me hear you bark at your best?"

So the dog dropped the piece of meat and stretched forth his neck for the exhibition. The hungry dog quickly seized the meat and ran away at full speed before the other dog fully realized what had happened.

OBITUARY.

James Franklin Hughes died at his home near Mattoon, Crittenden county, Ky., on Sept 3d, 1904, of obstruction of the bowels, in the 27th year of his age.

He lived all his life in the country and on the farm where he died. He was a straight and truthful young man and all who knew him loved him.

He leaves a mother and sister and one brother to mourn his death.

It was hard for his family and friends to give him up, but it is a sight we all have to pay, sooner or later.
